

TSUBAKI AUSTRALIA PTY LTD

PAVING CHAINS & COMPONENTS

- Items to suit:
- Blaw Knox ®

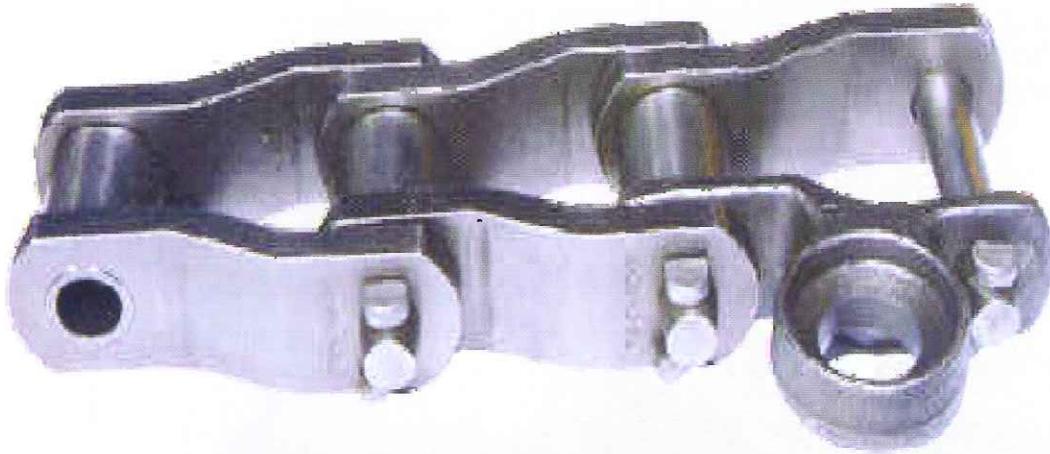

Tsubaki Quality:

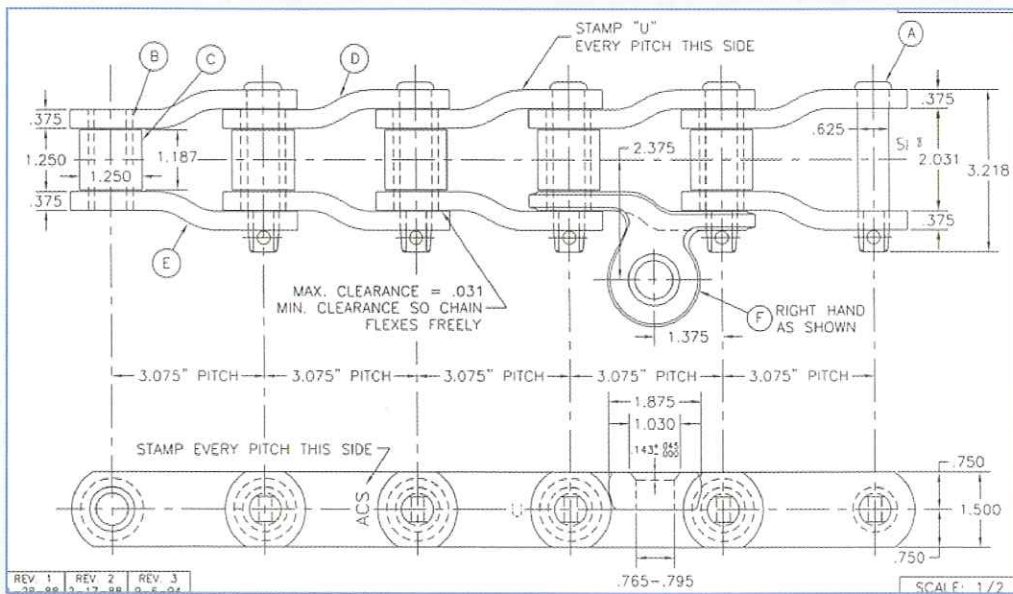

- High Wear Durability
- Selected Alloys and Steels
- Pre-assembled and Lubricated
- Paving the way in Performance

ASPHALT PAVING CHAINS:

Chain Specifications

All drawings are for reference only and are subject to change without prior notice. Contact Tsubaki Australia for confirmation on details and specifications.

Power & Performance:

The Paving Industry demands the highest degree of performance from its equipment—Chains, Flight Bars, Sprockets and associated components.

The nature of the business and operation of the equipment makes this industry hard on the poor performers, that's why Tsubaki is trusted in the field. Delivering reliability, under all the toughest conditions; Shock loads, Acidic environments, Dirt and Moisture. 24 hours a day 7 days a week.

Whether you are an original equipment manufacturer or owner operator wanting to maintain or revitalise your equipment Tsubaki Mobile Paving Chains will drive your dollar further.

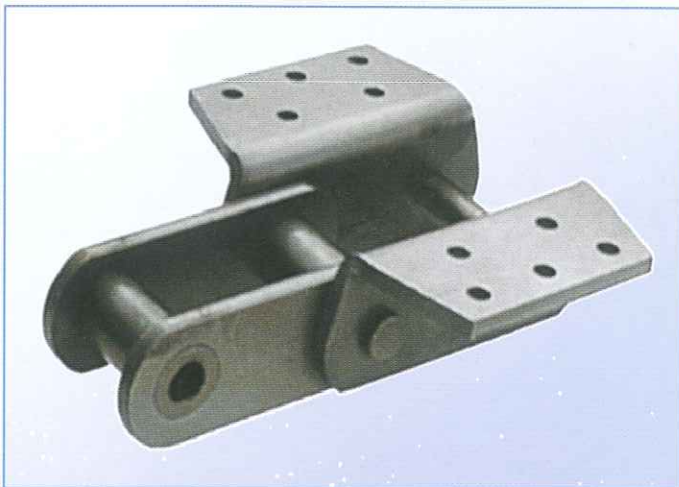

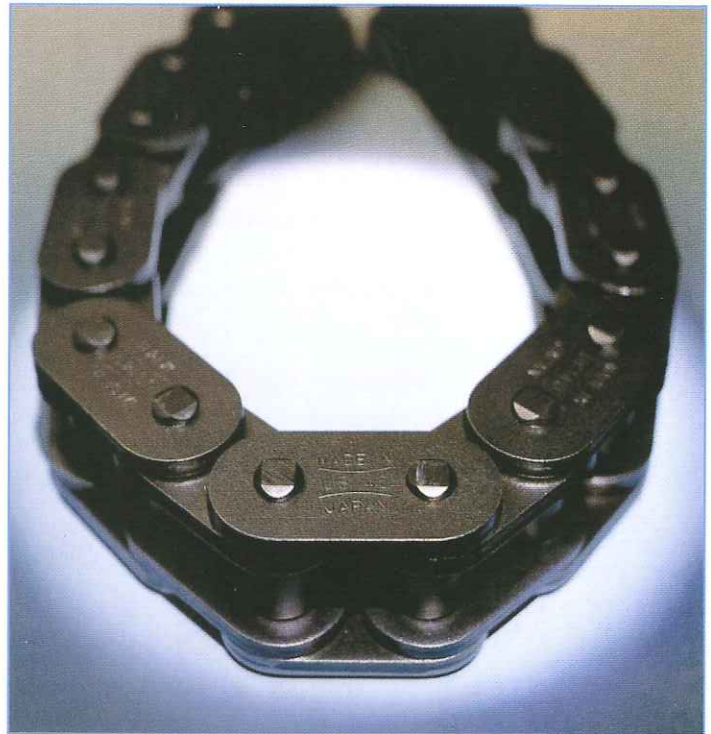

ASSOCIATED PAVING PRODUCTS:

Drive Chains:

Tsubaki is the worlds largest manufacturer of chain with a product line up to suit every need.

"V" series
"Heavy" series
"Super" series
"Super H" series
"Ultra Super" series

- Solid Bushings
- Quad Rivet Pins
- Through Harden Components
- Reliability and Performance

Asphalt Batch Plant Chain:

Asphalt is Hot, Tough and Extremely hard on every part of the Batch plant system.

With demands of 24 hours per day 7 days a week the paving operation can soon hit a dead end if the system fails at the source of supply.

Batching Performance is critical to the overall operation and delivery is paramount. Trust Tsubaki, the proven performer from Start to Finish.

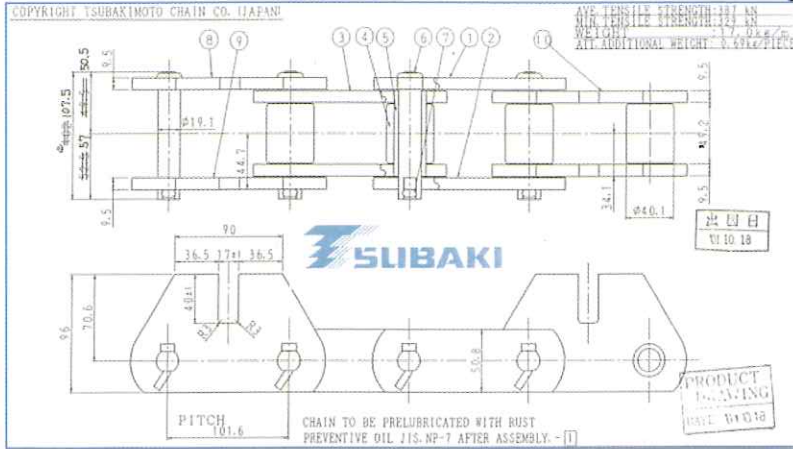

- High Quality, Long Lasting
- Shock Load performance
- Designed for Improved Profitability

ASSOCIATED PAVING PRODUCTS:

Shuttle Buggy Conveyor Chains:

To suit models (SB1500 & SB2500)

- Tsubaki In-feed chains for stages 'C1, C2 & C3 feed positions.
- "C1" Chain #: RF171.6-S (AT) 3L/Spec.SK-O att
- "C2" Chain #: RF171.6-S (AT) 3L/Spec.SK-O att
- "C3" Chain #: RF205-S (AT) Spec att-4L

Designed to Perform:

- Special Alloy Steel components
- Selected heat treatment designed for the toughest of field conditions
- Precision design and assembly
- Increased performance & wear life

ASSOCIATED PAVING PRODUCTS:

Battery Powered Mechanical Cylinders:

Controlling the flow of Asphalt from the hopper bin requires a robust unit designed for the toughest environments.

The Tsubaki 'Battery Cylinder' range has you covered to keep the product flow on the straight and narrow

- 2 models to choose from LPF or LPA
- 12 or 24 volt power supply
- Water proof casings
- Over load protection device available
