Automotive

i-Sint

ENI produce lubricants to meet the latest API and ACEA specifications of major car manufacturers. ENI stock premium-quality engine oils which are designed to provide optimum performance in high-output gasoline and diesel (including turbocharged and supercharged) engines in passenger cars, vans, sport utility vehicles (SUV). The technology incorporated in these lubricants enables them to meet domestic and foreign OEM performance requirements.

For more information request ENI Automotive brochure.

Motorbikes

i-Ride

The i-Ride lubricants range was developed based on AGIP's tradition and experience, consolidated with ENI's cutting edge research and technology. ENI's research has produced a high-performance lubricant line for motorbikes and scooters, capable of guaranteeing power, exceptional results, and reliability for any type of engine.

For more information request ENI Motorbike brochure.

Marine

The i-Sea line of lubricants is designed for all types of pleasure craft, from yachts to dinghies right through to personal watercraft equipped with inboard and outboard 2 and 4-stroke engines.

For more information request ENI Marine brochure.

Heavy Duty Transport

i-Sigma

i-Sigma is a complete line of lubricants designed for truck efficiency and reliability across all working conditions. Our lubricants maintain the latest Manufacturer, API & ACEA performance level requirements to maximise fuel economy, emissions standards and oil drain intervals.

For more information request ENI Heavy Duty Transport brochure.

Agriculture

Retra

A line of lubricants specifically designed to provide better fuel economy, eco-friendliness and long lasting performance in any weather condition. A series of specialized products as multifunctional oils, coolants, hydraulic fluids and greases to meet the needs of the majority of agricultural and work machinery.

For more information request ENI Agriculture brochure.

Food & Beverage

Rubus

ENI has developed a line of lubricants capable of meeting all the requirements of the food, pharmaceutical, cosmetics and animal feed industries. The ENI food grade lines are certified in accordance with NSF ISO 21469.

For more information request ENI Food brochure.

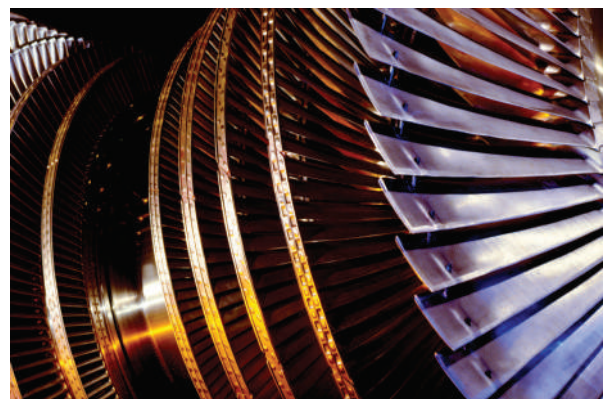

Industrial

ENI industrial lubricant lines are best in class for quality, meeting all the lubrication needs of industrial manufacturing plants. Our products cater for all industry sectors across Australia including engineering, fabrication, manufacturing, energy and power generation.

For more information request ENI Industrial brochure.

Mining and Civil Construction

We have long-term relationships with many of the country's largest and most productive mining and construction companies. Decades of experience have resulted in the formulation of lubricants, fluids and coolants that maximize operations and minimize downtime in some of Australia's harshest operating conditions.

In collaboration with an international technical team, we provide ongoing R&D and technical support, helping you to reduce your costs by providing high performance products which deliver:

- enhanced component protection
- extended equipment and oil life
- improved operating efficiencies

For more information request ENI Mining and Construction brochure.
