SAFETY DATA SHEET

No-Tox Syntra Food Grade Synthetic Oil 32

Section 1. Identification

| Product identifier | : No-Tox Syntra Food Grade Synthetic Oil 32 |
|----------------------------------|---|
| Product code | : 301315150007 |
| Other means of identification | : Not available. |
| Product type | : Liquid. |

Relevant identified uses of the substance or mixture and uses advised against

| Identified uses | |
|-------------------------|---|
| Not available. | |
| Uses advised against | Reason |
| None known. | |
| Company name Address | Calumet Branded Products, LLC 2780 Waterfront Pkwy E. Dr., Suite 200 Indianapolis, IN 46214 USA |
| | Technical Services 317-328-5660 24 hr CHEMTREC 1-800-424-9300/ International 1-703-527-3887 |
| Importer | Statewide Bearings 67 Kewdale Rd, Kewdale WA 6105 PO Box 205, WELSHPOOL DC WA 6986 Technical Services (During Normal Business Hours): (08) 9248 2381 24 hr. CHEMTREC Australia: +(61)-290372994 |

Section 2. Hazard(s) identification

| Classification of the substance or mixture | : Not classified. |
|--|---|
| GHS label elements | |
| Signal word | : No signal word. |
| Hazard statements | : No known significant effects or critical hazards. |
| Precautionary statements | |
| Prevention | : Not applicable. |
| Response | : Not applicable. |
| Storage | : Not applicable. |
| Disposal | : Not applicable. |
| Supplemental label elements | : Not applicable. |

Other hazards which do not : None known. result in classification

Section 3. Composition and ingredient information

| Substance/mixture | : Mixture |
|-------------------|------------------|
| Other means of | : Not available. |
| identification | |

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

1/8

Section 3. Composition and ingredient information

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
|--------------|---|
| Inhalation | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

Most important symptoms/effects, acute and delayed

Potential acute health effects Eye contact :

| Eye contact | : No known significant effects or critical hazards. |
|--------------------|---|
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure sign | s/symptoms |
| Eye contact | : No specific data. |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |

| Indication of immediate medical attention and special treatment needed, if necessary | | | |
|--|---|---|--|
| Notes to physician | : | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. | |
| Specific treatments | 1 | No specific treatment. | |
| Protection of first-aiders | : | No action shall be taken involving any personal risk or without suitable training. | |

See toxicological information (Section 11)

Section 5. Firefighting measures

| Extinguishing media | | |
|--|---|---------------------|
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. | |
| Unsuitable extinguishing media | : Do not use water jet. | |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the c | ontainer may burst. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide | |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the there is a fire. No action shall be taken involving any person suitable training. | |
| Date of issue/Date of revision | : 06/01/2020 | Version : 1 2/8 |

Section 5. Firefighting measures

| Special protective | : Fire-fighters should wear appropriate protective equipment and self-contained |
|-----------------------------|---|
| equipment for fire-fighters | breathing apparatus (SCBA) with a full face-piece operated in positive pressure |
| | mode. |

Section 6. Accidental release measures

| Personal precauti | ons, protective e | quipment and | emergency procedures |
|-------------------|-------------------|--------------|----------------------|
| | | | |

| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment. |
|--------------------------------|---|--|
| For emergency responders | : | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |

Methods and material for containment and cleaning upSmall spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop
up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry
material and place in an appropriate waste disposal container. Dispose of via a
licensed waste disposal contractor.Large spill: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers,
water courses, basements or confined areas. Wash spillages into an effluent
treatment plant or proceed as follows. Contain and collect spillage with non-
combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth
and place in container for disposal according to local regulations (see Section 13).
Dispose of via a licensed waste disposal contractor. Note: see Section 1 for
emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

| Precautions for safe handling | q | |
|--|---|---|
| Protective measures | | Put on appropriate personal protective equipment (see Section 8). |
| Advice on general occupational hygiene | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls and personal protection

Control parameters

None.

Appropriate engineering controls

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

3/8

Section 8. Exposure controls and personal protection

| • | • • | |
|---------------------------------|---|----------------------------------|
| Environmental exposure controls | ions from ventilation or work process equipment should be closed omply with the requirements of environmental protection legis , fume scrubbers, filters or engineering modifications to the p ment will be necessary to reduce emissions to acceptable lev | slation. In some rocess |
| Individual protection measure | | |
| Hygiene measures | hands, forearms and face thoroughly after handling chemical, smoking and using the lavatory and at the end of the working priate techniques should be used to remove potentially conta contaminated clothing before reusing. Ensure that eyewash showers are close to the workstation location. | ng period. minated clothing. |
| Eye/face protection | v eyewear complying with an approved standard should be us sment indicates this is necessary to avoid exposure to liquid or dusts. If contact is possible, the following protection shou s the assessment indicates a higher degree of protection: sat hields. | splashes, mists, Ild be worn, |
| Skin protection | | |
| Hand protection | ical-resistant, impervious gloves complying with an approved rn at all times when handling chemical products if a risk asse necessary. | |
| Body protection | nal protective equipment for the body should be selected bas performed and the risks involved and should be approved by handling this product. | |
| Other skin protection | priate footwear and any additional skin protection measures s ed based on the task being performed and the risks involved ved by a specialist before handling this product. | |
| Respiratory protection | I on the hazard and potential for exposure, select a respirator priate standard or certification. Respirators must be used acc atory protection program to ensure proper fitting, training, and ts of use. | cording to a |

Section 9. Physical and chemical properties

| <u>Appearance</u> | | |
|--|---|---|
| Physical state | : | Liquid. |
| Colour | : | Clear. White. |
| Odour | : | Not available. |
| Odour threshold | : | Not available. |
| рН | : | Not available. |
| Melting point | : | Not available. |
| Boiling point | : | Not available. |
| Flash point | : | Open cup: 254.44°C (490°F) [Cleveland.] |
| Evaporation rate | : | Not available. |
| Flammability (solid, gas) | : | Not available. |
| Lower and upper explosive (flammable) limits | 1 | Not available. |
| Vapour pressure | : | Not available. |
| Vapour density | : | Not available. |
| Relative density | : | 54 |
| Solubility | : | Not available. |
| Solubility in water | : | Not available. |
| Partition coefficient: n- octanol/water | 1 | Not available. |
| Auto-ignition temperature | : | Not available. |
| Decomposition temperature | 1 | Not available. |

Section 9. Physical and chemical properties

| Continue 40. Otability and reportinity | | |
|--|--|--|
| Pour point | : -63°C (-81.4°F) | |
| Flow time (ISO 2431) | : Not available. | |
| Viscosity | : Kinematic (40°C (104°F)): 0.3097 cm²/s (30.97 cSt) | |
| | | |

Section 10. Stability and reactivity

| - |
|--|
| : No specific test data related to reactivity available for this product or its ingredients. |
| : The product is stable. |
| : Under normal conditions of storage and use, hazardous reactions will not occur. |
| : No specific data. |
| : No specific data. |
| : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |
| |

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitisation

Not available.

Mutagenicity

Not available.

Carcinogenicity

Not available.

Reproductive toxicity

Not available.

Teratogenicity

Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on likely routes : Not available.

of exposure

Potential acute health effects

Eye contact

: No known significant effects or critical hazards.

Section 11. Toxicological information

Numerical measures of toxicity

Acute toxicity estimates N/A

Section 12. Ecological information

Toxicity

Not available.

Persistence and degradability

Not available.

Bioaccumulative potential Not available.

Mobility in soil Soil/water partition coefficient (Koc)

: Not available.

Section 12. Ecological information

Other adverse effects

: No known significant effects or critical hazards.

Section 13. Disposal considerations

- Disposal methods
- : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

| | ADG | ADR/RID | IMDG | ΙΑΤΑ |
|-----------|----------------|----------------|----------------|----------------|
| UN number | Not regulated. | Not regulated. | Not regulated. | Not regulated. |

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to Annex II of Marpol and the IBC Code

Section 15. Regulatory information

Standard Uniform Schedule of Medicine and Poisons

Not regulated.

Model Work Health and Safety Regulations - Scheduled Substances

No listed substance
