## SAFETY DATA SHEET

Termalene Multipurpose Extreme Pressure Grease 2

2

### Section 1. Identification

Product identifier	:	Termalene Multipurpose Extreme Pressure Grease
Product code	÷	301091150004
Other means of identification	:	Not available.
Product type	:	Liquid.

#### Relevant identified uses of the substance or mixture and uses advised against

Identified uses		
Not available.		
Uses advised against	Re	ason
None known.		
Company name Address	Calumet Branded Products, LLC 2780 Waterfront Pkwy E. Dr., Suite 200 Indianapolis, IN 46214 USA	
	Technical Services 317-328-56	660
	24 hrCHEMTREC 1-800-424-9300/ Inter	national 1-703-527-3887
Importer	Statewide Bearings 67 Kewdale Rd, Kewdale WA 6105 PO Box 205, WELSHPOOL DC WA 6986 Technical Services (During Normal Busines 24 hr. CHEMTREC Australia: +(61)-290372	, , ,

### Section 2. Hazard(s) identification

Classification of the substance or mixture	:	Not classified.	
		Percentage of the mixture consisting of ingredient(s) of unknown acute oral toxicity: 39.2%	
		Percentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity: 41.6%	
		Percentage of the mixture consisting of ingredient(s) of unknown acute inhalation toxicity: 39.2%	
		Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 39.2%	
GHS label elements			
Signal word	:	No signal word.	
Hazard statements	:	No known significant effects or critical hazards.	
Precautionary statements			
Prevention	:	Not applicable.	
Response	:	Not applicable.	
Storage	:	Not applicable.	
Disposal	:	Not applicable.	
Supplemental label elements	:	Not applicable.	
Other hazards which do not result in classification	:	None known.	

### Section 3. Composition and ingredient information

### Substance/mixture

### Other means of identification

- : Mixture
- : Not available.

Ingredient name	% (w/w)	CAS number
Paraffin oils (petroleum), catalytic dewaxed heavy Distillates (petroleum), hydrotreated heavy naphthenic (benzoato-O,O')hydroxy(octadecanoato-O,O')aluminium antimony compounds with the exception of the tetroxide (Sb2O4), pentoxide (Sb2O5), trisulphide (Sb2S3), pentasulphide (Sb2S5) and those specified elsewhere in this database	≥30 - ≤60 ≥10 - ≤30 ≤10 <2.5	64742-70-7 64742-52-5 54326-11-3 15874-48-3

# There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

#### **Description of necessary first aid measures**

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health effe	ects
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sym	<u>ptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
Indication of immediate me	dical attention and special treatment needed, if necessary
Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

### Section 5. Firefighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides phosphorus oxides metal oxide/oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	<ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>

### Section 6. Accidental release measures

Personal precautions, protec	tive equipment and emergency procedures
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
For emergency responders	: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and material for cor	tainment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent

### Section 7. Handling and storage

#### Precautions for safe handling

**Protective measures** 

: Put on appropriate personal protective equipment (see Section 8).

### Section 7. Handling and storage

	-	•
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

### Section 8. Exposure controls and personal protection

### Control parameters

#### **Occupational exposure limits**

Ingredient name	Exposure limits
Paraffin oils (petroleum), catalytic dewaxed heavy	Safe Work Australia (Australia, 4/2018). TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Mist
Distillates (petroleum), hydrotreated heavy naphthenic	<b>Safe Work Australia (Australia, 4/2018).</b> TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Mist
(benzoato-O,O')hydroxy(octadecanoato-O,O')aluminium	<b>Safe Work Australia (Australia, 4/2018).</b> TWA: 2 mg/m <sup>3</sup> , (as Al) 8 hours.
antimony compounds with the exception of the tetroxide (Sb2O4), pentoxide (Sb2O5), trisulphide (Sb2S3), pentasulphide (Sb2S5) and those specified elsewhere in this database	<b>Safe Work Australia (Australia, 4/2018).</b> TWA: 0.5 mg/m <sup>3</sup> , (as Sb) 8 hours.

Appropriate engineering controls	:	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.	
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.	
Individual protection measure	<u>es</u>		
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.	
Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.	
Skin protection			
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.	
Body protection	:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.	
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.	

### Section 8. Exposure controls and personal protection

#### Respiratory protection

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

### Section 9. Physical and chemical properties

<u>Appearance</u>		
Physical state	quid. [Viscous	liquid. Paste.]
Colour	ed.	
Odour	ot available.	
Odour threshold	ot available.	
рН	ot available.	
Melting point	ot available.	
Boiling point	0°C (680°F)	
Flash point	pen cup: 214°	C (417.2°F) [Cleveland.]
Evaporation rate	ot available.	
Flammability (solid, gas)	ot available.	
Lower and upper explosive	ot available.	
(flammable) limits		
Vapour pressure	ot available.	
Vapour density	ot available.	
Relative density	871	
Solubility	soluble in the t	following materials: cold water and hot water.
Solubility in water	ot available.	
Partition coefficient: n-	ot available.	
octanol/water		
Auto-ignition temperature	60°C (500°F)	
Decomposition temperature	ot available.	
Viscosity	nematic (40°C	; (104°F)): Not applicable.
Flow time (ISO 2431)	ot available.	

### Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Distillates (petroleum), hydrotreated heavy naphthenic	LC50 Inhalation Dusts and mists	Rat	5.7 mg/l	4 hours
	LD50 Dermal LD50 Oral	Rabbit Rat	>2000 mg/kg >5000 mg/kg	-

#### Irritation/Corrosion

Not available.

#### **Sensitisation**

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### **Reproductive toxicity**

Not available.

#### **Teratogenicity**

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

## Information on likely routes : Not available. of exposure

### Potential acute health effects

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

Delayed and immediate effect	ts as well as chronic effects from short and long-term exposure
<u>Short term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.

Date of issue/Date of revision	: 09/24/2020
--------------------------------	--------------

### Section 11. Toxicological information

<u>Long term exposure</u>		
Potential immediate effects	: Not available.	
Potential delayed effects	: Not available.	
Potential chronic health eff	<u>cts</u>	
Not available.		
General	: No known significant effects or critical haz	ards.
<b>.</b>		
Carcinogenicity	: No known significant effects or critical haz	ards.
Carcinogenicity Mutagenicity	<ul> <li>No known significant effects or critical haz</li> <li>No known significant effects or critical haz</li> </ul>	
		ards.
Mutagenicity	: No known significant effects or critical haz	ards. ards.
Mutagenicity Teratogenicity	<ul> <li>No known significant effects or critical haz</li> <li>No known significant effects or critical haz</li> </ul>	zards. zards. zards.

#### Numerical measures of toxicity

#### Acute toxicity estimates

Product/ingredient name	Oral (mg/ kg)	Dermal (mg/kg)	Inhalation (gases) (ppm)	Inhalation (vapours) (mg/l)	Inhalation (dusts and mists) (mg/l)
Termalene Multipurpose Extreme Pressure Grease 2	12676.5	N/A	N/A	278.9	N/A
Distillates (petroleum), hydrotreated heavy naphthenic	N/A	N/A	N/A	N/A	5.7
antimony compounds with the exception of the tetroxide (Sb2O4), pentoxide (Sb2O5), trisulphide (Sb2S3), pentasulphide (Sb2S5) and those specified elsewhere in this database	500	N/A	N/A	11	N/A

### Section 12. Ecological information

#### **Toxicity**

Product/ingredient name	Result	Species	Exposure
Distillates (petroleum), hydrotreated heavy naphthenic	Acute EC50 >100 mg/l	Algae	72 hours
	Acute EC50 >100 mg/l Acute LC50 >100 mg/l	Crustaceans Fish	48 hours 96 hours

#### Persistence and degradability

Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
Distillates (petroleum), hydrotreated heavy naphthenic	-	-	Inherent

#### **Bioaccumulative potential**

Not available.

#### Mobility in soil Soil/water partition coefficient (Koc)

: Not available.

### Section 12. Ecological information

Other adverse effects

: No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** The generation of waste should be avoided or minimised wherever possible. 2 Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

	ADG	ADR/RID	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

#### Transport in bulk according : Not available. to Annex II of Marpol and the IBC Code

### Section 15. Regulatory information

#### Standard Uniform Schedule of Medicine and Poisons

Not regulated.

#### Model Work Health and Safety Regulations - Scheduled Substances

Ingredient name	<u>Schedule</u>
	Restricted hazardous chemical [For abrasive blasting at a concentration of greater than 0.1% as antimony]

**Inventory list** Australia
