

SPHERICAL ROLLER BEARING UNITS

New brand COC from Japan is one of the global leaders in quality spherical roller bearing units, used worldwide.

With their innovative new designs, COC units can handle the tough Australian conditions, as well as heavy vibration and shock loads.

Design includes:

- Patented CROSSLOC™ adapter mount system. 360° holding the length of sleeve allows maximum gripforce.
- Triple lip contact seal that allows up to +/-2° of misalignment.
- Stainless steel flinger.
- Heavy duty one-piece cast-iron housings with solid foot design.
- Dimples for dowel-pin drilling.
- Collar mount setscrews with nylon patch at 90° providing maximum holding power.

CONNECT FROM ANYWHERE

Each COC unit comes with a QR code for scanning from your mobile phone. This gives you access to:

- Dimensions
- Installation instructions and videos
- Maintenance information
- Serial number to use their warranty

CX2SN

CROSSLOC™ COC's new adaptor locking system with SN dimension housing is a unitized replacement for the standard SN split housing units. This is a great solution to save you time and money.

CS4F

Set screw collar lock spherical roller bearing with four bolt flange housing.

CS2P

Set screw collar lock spherical roller bearing with two bolt pillow block housing.
