**WE ARE WINNERS IN THE**

29TH ANNUAL NATIONAL SAFETY AWARDS OF EXCELLENCE

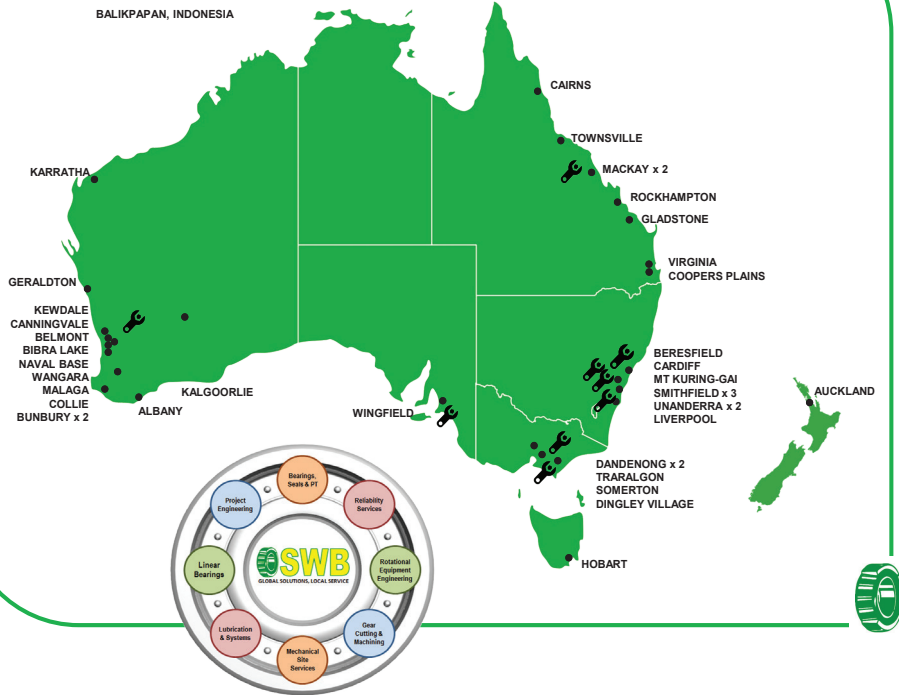

NSCA Foundation CIO

## MARKET LEADER IN THE SUPPLY OF ROTATIONAL EQUIPMENT & ENGINEERING SERVICES

- Experts in Rotating Equipment Engineering
- Complete In-house Repairs
- Professional Strip / Assess / Rebuild Reports
- Inspections, including Non-destructive Testing of Components
- Fault Finding & Failure Analysis
- On-site Removal, Re-installation & Alignment
- In-house Manufacturing of Gears
- Custom design, build, commissioning of new process & material handling, plant & equipment

# SWB

SWB Plus operates within a portfolio of companies wholly Australian owned and operated through the Statewide Bearings group. Growing over the past 45+ years from 1 staff member in 1974 to more than 33 branches and facilities with close to 400 staff members across Australia. Statewide Bearings has established itself as the best resource for businesses demanding the highest level of customer service, backed by the industries best technical resources to support all types of rotational equipment.

Statewide Bearings has invested in our staff and your future by employing the industries best qualified engineering support staff ensuring that when you contact SWB, you know you'll get the best solution.

## WA KEWDALE

Specialist pump & brake rebuild facility for the mining sector.

- 1000sqm of workshop floor space
- 10t & 12.5t overhead cranes
- Purpose built bearing assembly/clean room
- Mobile service crew for on-site work
- Huge stock of slurry pump spares

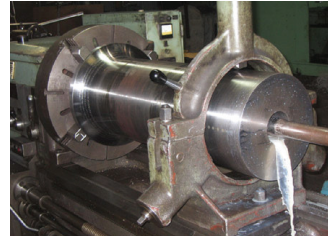

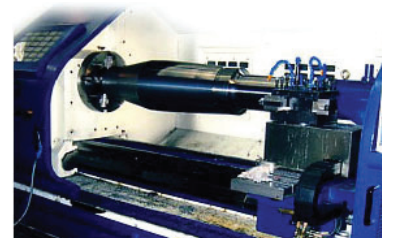

## SA WINGFIELD

- 600sqm facility
- In house gear and sprocket manufacturing
- Drive and conveyor sprockets up to 1m dia (3/8 to 1-1/2 inch pitch)
- Bore and key machining
- Slash grinding capacity up to 1m dia
- CNC machined parts
- 48sqm assembly clean room

## VIC DINGLEY

- Formally TRA Engineering
- Manual turning up to 9m x 900mm dia
- N.C turning up to 4m x 1275mm dia
- Manual milling up to 4m x 1.1m x 1.5
- N.C milling up to 1.2m x 0.7m x 0.7m
- 2 x 10t crane capacity
- 7.5m heigh under crane hook
- Fabrication capabilities

## VIC DANDENONG

Huge workshop with specialist fitters to provide large scale manufacture and repairs.

- 2 x 10t cranes
- 1685sqm of factory space with truck access
- Large hard stand, lay-down area
- Large wash bay with oil separation
- Spray booth
- Large range of machinery, lathes, mills, borer
- 400t horizontal press
- 6 Qualified mechanical fitter & A grade electrician
- On-site support

## QLD MACKAY

Specialise in the manufacture and maintenance of slurry pumps for the local mining industry.

- Site services
- Huge stock of slurry pump spares
- Purpose built clean-room
- Overhead cranes
- Hot wash & ultrasonic cleaning machines
- 2t Electric reach forklift
- External racking & pump shaft storage rack
- 10t Horizontal press
- Hydrostatic test bay
- Spray booth
- Manual lathe

**SMITHFIELD**

Specialise in the manufacture & supply of gears to branch & engineering facilities throughout the SWB Group.

- Gear cutting ranging from 0.75Module-12Module 32DP-2DP Up to 1m diameter
- Wormshafts & wormwheels
- General machining
- Turning up to 500mm diameter x 1500mm long
- CNC lathes & mills
- Wire cutting
- 5t overhead crane
- Hydraulic nut manufacturing
- Coupling manufacturing

**UNANDERRA**

Specialising in drive shafts, gearboxes and all aspects of power transmission for mining, steelmaking and paper sectors.

- Combined 10t crane capacity
- 4t forklift
- Large undercover lay-down area
- Wash bay with oil separation
- 400t horizontal press
- Large range of machinery: Lathes, mills, surface grinder
- Dynamic Balancing machine
- No load spin test bench, with vibration analysis
- Spray booth
- Qualified mechanical engineers, fitters & welders

**CARDIFF**

Cardiff's facility has the ability to perform manufacture and overhaul of a wide range of products including slurry pumps & gearboxes.

- Slurry pump specialists
- 1200sqm workshop
- Steam cleaning bay & paint booth
- Hydrostatic test bay
- Machining & fabrication capabilities
- Gearbox load testing
- 375t horizontal press
- 100t vertical press
- Breakdown ready
- Site services

# MECHANICAL ONSITE SERVICE

- Innovative and practical engineering solutions
- Power station pumps, sump pumps & chain driven applications
- Expert lubrication & condition monitoring team
- Call out availability
- On-site support during post outage plant & equipment start-ups
- Engineering support staff available for diagnosis & equipment evaluations
- Hydrostatic & hydraulic testing capabilities
- De-watering and fire pumps service experience
- Complete removal capability for on-site unit change-out & off-site repair to rotatable units

## SLURRY PUMP - BUILDS, REPAIRS, REFURBISHMENTS

### SUPPLIER OF SLURRY PUMP COMPONENT PARTS

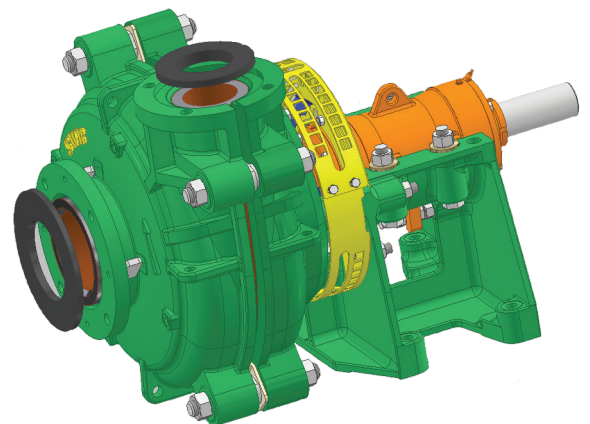

Manufacturer & in-house repairer of heavy duty slurry pumps

**Wear-MinTech**  
Wear Minimisation Technology Pty Ltd

### Typical Applications

- Mill Discharge
- Mineral Processing
- Tailings Disposal
- Coal Washing
- Steel Mills / Slag Granulation
- Sand Quarrying
- Construction, Chemical and General Industries

## SWB PLUS WORKSHOPS

### CARDIFF

Tel: (02) 4954 9777  
Unit 2, 46 Munibung Rd  
Cardiff NSW 2285  
cardiff@swbplus.com.au

### DANDENONG

Tel: (03) 9799 8800  
40-44 Remington Rd  
Dandenong South VIC 3175  
workshop.vic@swbplus.com.au

### DINGLEY

Tel: (03) 9551 4266  
4 Garden Boulevard  
Dingley VIC 3172  
dingley@swbplus.com.au

### KEWDALE

(08) 6154 5992  
2 Aitken Way,  
Kewdale WA 6105  
wa@swbplus.com.au

### MACKAY

Tel: (07) 4963 7580  
32 Elvin Street  
Paget Mackay QLD 4740
